

QUALITY CARRIERS
Custom Designs - Built to Last
North America's Glass Rack Leader!

Specialty Glass Racks

A-Frame Glass Carrier

Rides inside vehicle's bed or cargo bay to transport smaller pieces of glass

Constructed from 1/8-inch thick 6061 T6 aluminum posts, slats and braces

2-inch wide glass protection padding along full length of horizontal slats

Fabricated with Huck® aircraft-grade fasteners for strong connections that won't crack like welds or loosen like screws or bolts

Includes T6-Adjust-A-Poles with vertically and horizontally adjustable triangle cleats (two per side)

Integrated rubber padding along full length of vertical slats

Models for 6- or 8-foot long truck beds

Open design for interior storage

Compact and Durable

Four point top braces for strength and rigidity

Bottom ledge with rubber blocks and multiple pole settings

Optional E-track cargo control system available
