Strong, welded steel sub frame

Walk-in interior racking area maximizes capacity

We're Here to Save Your Glass!

Specifications subject to change. Some optional equipment shown.

Strong 1/8-inch thick 6061 T6 aluminum posts and slats

Integrated horizontal and vertical rubber padding runs the length of all posts and slats

Aircraft-grade Huck® fasteners are superior to welds for joining aluminum

Extra-tall T6-Adjust-A-Poles with fully-adjustable rubber triangle cleats

5-inch fully usable glass carrying ledge with multiple pole settings

Thick rubber pads protect bottom edge of glass

Optional E-track

Removable, padded front stop

Steel hand-holds for easier access to interior racks

Storage space between inner and outer posts

Removable, composite rear wall

Fold-down stirrup steps

Step-bumper with non-slip surface

Optional Sign Panel

Koski-Crown Slip Resistant Flooring

LED lights and sealed wire harness - superior to incandescent bulbs
