

# QUALITY CARRIERS

## Built to Last - Great Prices

Made in the USA - Since 1989

### INNOVATIONS

Making it quicker and easier to deliver glass while reducing breakage

#### Exterior Fold-Down Glass Cutting Table

#### A Stable Work Surface...to Go!

No more trying to cut glass on a rigged-up table or while kneeling over a piece of wood on the ground.

*Get an easy, clean cut every time!*

- 5-foot deep by 5-foot wide fold-down stainless steel work table
- Height adjustable legs for a level and sturdy surface
- 1/8-inch thick aluminum top

Smaller interior fold-down table also available for Sprinters **New Product**

#### Fully Adjustable T6-Adjust-A-Pole

#### The Best Pole in the Business!

##### Super-Strong

Detail of pole top showing strong, extruded T6 aluminum shaft with integrated T-channels for added structural support ▶

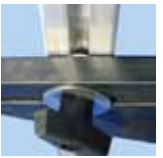

##### Easy-to-Service

Stainless steel top and bottom sections of pole are bolted on to make field servicing easy ▶

##### Fully Adjustable

Cleats slide forward, backward and vertically to any position along the pole ▶

Utilize two cleats side-by-side for added grip

**New Product**

#### Demountable Glass Carrier

#### On & Off... Easy & Quick!

- Available in aluminum for vans and sprinters
- Easy and quick installation and removal

Roof rack required

- Improve vehicle's maneuverability when driving in tight urban areas or not making glass deliveries
- Save fuel by reducing vehicle weight when glass carrier isn't necessary

**New Product** **Green Feature**

#### Vertical Rubber Padding

#### More Padding for More Protection!

MyGlassTruck.com carriers minimize breakage because they have the most padding per surface area in the industry

- Rubber padding is integrated into vertical posts from top to bottom
- Smaller pieces of glass, and glass with edges that fall between the horizontal slats are secured against soft rubber

**New Feature**
