North America's Glass Rack Leader!

FORD TRANSIT GLASS RACK

Glass rack can be mounted on either side of vehicle

Two T6-Adjust-A-Poles with fully-adjustable black neoprene cleats (shown) or upgrade to optional T6-Super-Poles with precision scissor-style cleats

Superior rack fabrication with Huck® aircraft-grade, mechanical fasteners that won't crack like welded aluminum or loosen from vibration

Splash panel protects glass from water and debris

Usable 5-inch ledge with rubber block pads and padded, bolt-on front stop

Load bearing, painted steel under-body mounts support rack and payload to reduce vehicle wear

Strong 1/8-inch thick 6061 T6 aluminum posts and slats

2-inch wide padding runs full length of horizontal slats

Rubber padding from top to bottom of vertical posts

Top of glass rack mounts to roof rack

Dual pole settings on ledge for securing glass of varying thickness

Specifically Designed for Ford Transit

Optional removable wheel skirt for hassle-free tire changes and maintenance

Specifications subject to change.

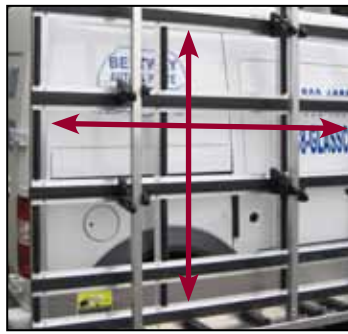

Standard Rack Features

Fixed wheel-skirt and one row of splash panel

Strong 1/8-inch thick T6 aluminum posts and slats

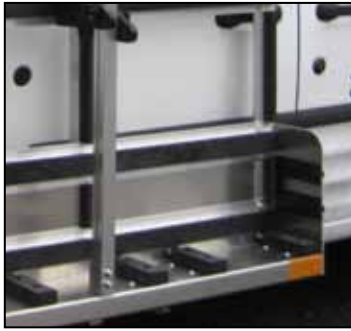

Full length horizontal and vertical rubber padding

Standard T6-Adjust-A-Poles

with four rubber triangle cleats that adjust forward/backward and to any position up or down the pole

Bolt-on steel top and bottom sections make service in the field easy

Usable 5" deep bottom ledge with removable front stop

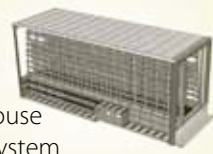

Custom designed, load bearing underbody mounts

Superior Rack Fabrication with Huck® Aircraft-Grade Mechanical Fasteners

Won't crack like welded aluminum or loosen from vibration

All racks designed with in-house 3D CAD system

Rack Options

Removable wheel skirt for easy access to rear wheels

Sign panel with graphics

Standard roof rack with two cross bars (Roof rack attaches to mounting track that must be installed on van. Track can be provided by Ford or MyGlassTruck.com)

Upgrade to Optional T6-Super-Poles

Same features as T6-Adjust-A-Pole shown above, but with three Supertruck System 2 scissor-style cleats for precise adjustment of pressure on glass

Patent Pending Second Ledge System

Expand rack capacity by transporting glass on upper portion of rack when the bottom ledge is occupied. Row of E-track required. (sold separately).

E-track cargo control system
